

**WHEN CAN I GO BACK
TO SCHOOL?**

My family and I have been doing a great job staying at home in order to keep from getting sick and protect other people from the Coronavirus.

It is hard to be away from school, my friends, and all of the places I like to go. I miss school.

It is also nice to be with my family and be safe at home.

I work hard doing school at home. It can be hard to learn a new routine.

My parents and teachers are proud of me for being flexible and learning a new routine! I am proud of me, too!

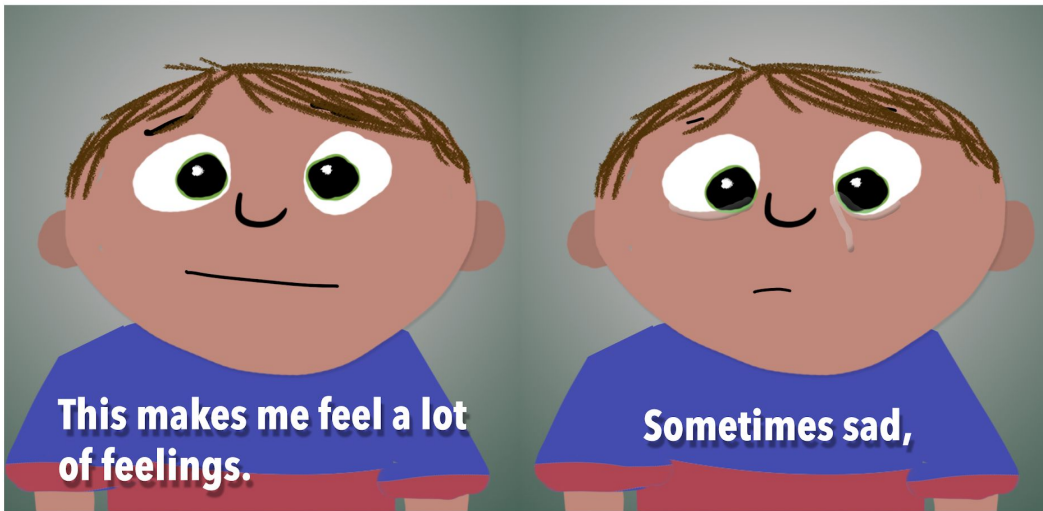

My school teachers and friends miss me. I miss them, too. But my teachers are still teaching me through computers, handouts, and fun projects. My family helps, too!

**I can see or talk to my friends on the computer or phone.
They are still my friends.**

Now we have to stay at home and won't be able to return to school before summer break.

We are staying safe from the Coronavirus and making sure others stay safe, too. This is very important work.

**We will go back to school as soon as it is safe.
I will see my friends and my teachers again.
I will be in the next grade, have a new teacher, and new classmates.
Last years teachers and friends will be there too.**

**We WILL go back to school, and everyone,
(my family, my teachers, my principal, my friends) will
be so proud of me for working hard, being flexible, and
helping to keep everyone safe.**
